CLIMATE CHANGE

The League's Position

Statement of Position on Climate Change, as announced by the national board, January 2019:

The League believes that climate change is a serious threat facing our nation and our planet.

The League believes that an interrelated approach to combating climate change — including through energy conservation, air pollution controls, building resilience, and promotion of renewable resources — is necessary to protect public health and defend the overall integrity of the global ecosystem. The League supports climate goals and policies that are consistent with the best-available climate science and that will ensure a stable climate system for future generations. Individuals, communities, and governments must continue to address this issue, while considering the ramifications of their decision at all levels — local, state, regional, national, and global.

League History

In the late 2000s, LWVUS significantly increased its advocacy concerning global climate change. LWVUS believes that climate change is a serious problem that requires immediate domestic and international action. The League believes the US government should move ahead immediately, without waiting for other nations, on initiatives to reduce emissions of heat-trapping gases like carbon, methane, and other toxic air pollutants. Such actions will reduce the threat of global climate change, combat air pollution, increase energy security, and create new jobs.

In late 2006, the League joined other groups in issuing a statement of principles on the importance of reducing climate change. The League also created a Climate Change Task Force to provide information and assistance to the national board and staff on issues pertaining to climate change. The Task Force also worked to develop materials for use by League members at the local, state, and national levels.

In 2008, the League called on Congress to enact legislation to significantly cut the greenhouse gas emissions that cause global climate change and supported increased energy efficiency and a shift to clean, renewable energy. The League called for a moratorium on the building of new coal-fired electric power plants and supported requirements for utilities to produce a significant percentage of electricity from renewable resources.

The League supported the *Climate Security Act of 2008*, as well as amendments to strengthen the bill. This legislation provided for a cap-and-trade system, which would have cut greenhouse gas emission from electric power, transportation, and manufacturing sources. The emissions cap would be reduced over time to meet pollution-reduction goals based on the best available scientific information. These emissions reductions could be traded on a market set up by the legislation, allowing polluters to buy, sell, borrow, and trade emission allowances to ensure economic efficiency in the program. The League also urged elected officials to extend clean energy tax incentives. Though it passed the US House of Representatives, the legislation was sidetracked in the US Senate by special interests.

In December 2009, the League was thrilled to participate on the international stage, sending an official NGO delegation to Copenhagen for the UN Framework Convention on Climate Change. In March 2010, 19 League leaders from as many states went to Washington to lobby congressional leaders on strong climate change

WHERE WE STAND

Program Book

Last Updated June 2023

Handgun control

Goal:
Elimination of the private possession of handguns (1974) and assault weapons (1989).

The League supports:

- limitation of the sale and possession of handguns and assault weapons to law enforcement and military personnel
- a possible exception for sportsmen if the guns are used and stored away from the home under controlled conditions

Until such a time as a ban on the private possession of handguns and assault weapons becomes law the League supports:

- improved and standardized licensing procedures
- training in the use of handguns and assault weapons and the responsibilities of ownership
- education of the public to the dangers of the handgun in the home
- strict enforcement of the present laws concerning handgun ownership
- measures to encourage the removal of all handguns and assault weapons from the home and street

League action
In 1975 LWVMA co-filed a bill to ban handguns to all but police, military and certain other people. It did not pass. In 1975 the League joined other groups in collecting more than 102,000 certified signatures on an initiative petition to ban the private possession of handguns. After the bill failed to pass the legislature in 1976, the League helped collect the additional signatures needed to place the question on the ballot. The referendum was defeated by a two-to-one margin. The League's efforts to ban the "Saturday night special" handgun have also failed.

LWVMA has worked for stricter licensing and registration procedures and has met with no success. During late 1976 and early 1977, LWVMA participated in mediation sessions involving groups on both sides of the limitation issue. Agreement was reached on institution of administrative steps to be taken by police chiefs to improve licensing procedures, making them more uniform and strict. LWVMA supported a bill to require handgun owners to pass safety courses before being granted gun permits, but general support for these kinds of measures is weak.

Background

- 1974: Delegates to state council adopted a short study on statewide control of the sale and possession of handguns. In the fall of that year, members, concerned about violence committed through the use of handguns, reached consensus in support of limiting private possession of handguns. Members agreed that the most effective way to control misuse of handguns is to limit their number.
- 1989: Delegates to state convention, responding to concern over violence committed with assault weapons, adopted, through concurrence, the addition of the words "and assault weapons" to the handgun control position.
- 1990: Delegates to national convention adopted, through concurrence, a national position on handgun control.

Health care

Goal:
An affordable health care system that provides equal access to quality health care for all. (1983)

The League supports:

- a state and regional health care planning system that will set guidelines for allocation of health care resources in Massachusetts
- development of a state health plan by regional planning committees with final coordination and implementation at the state level
- coordination of planning, financing and regulation so that goals of the plan are accomplished
- public financing of health care provided by federal and state taxes for people who cannot pay
- citizen participation in planning, coordinating, financing, regulating, managing and monitoring, including consumer representation on planning committees
- consumer education on maintaining health, use of the health care system, costs and patients' rights
- emphasis on preventive medicine, use of alternative settings, individual responsibility for health maintenance, control of environmental hazards and consumer education

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

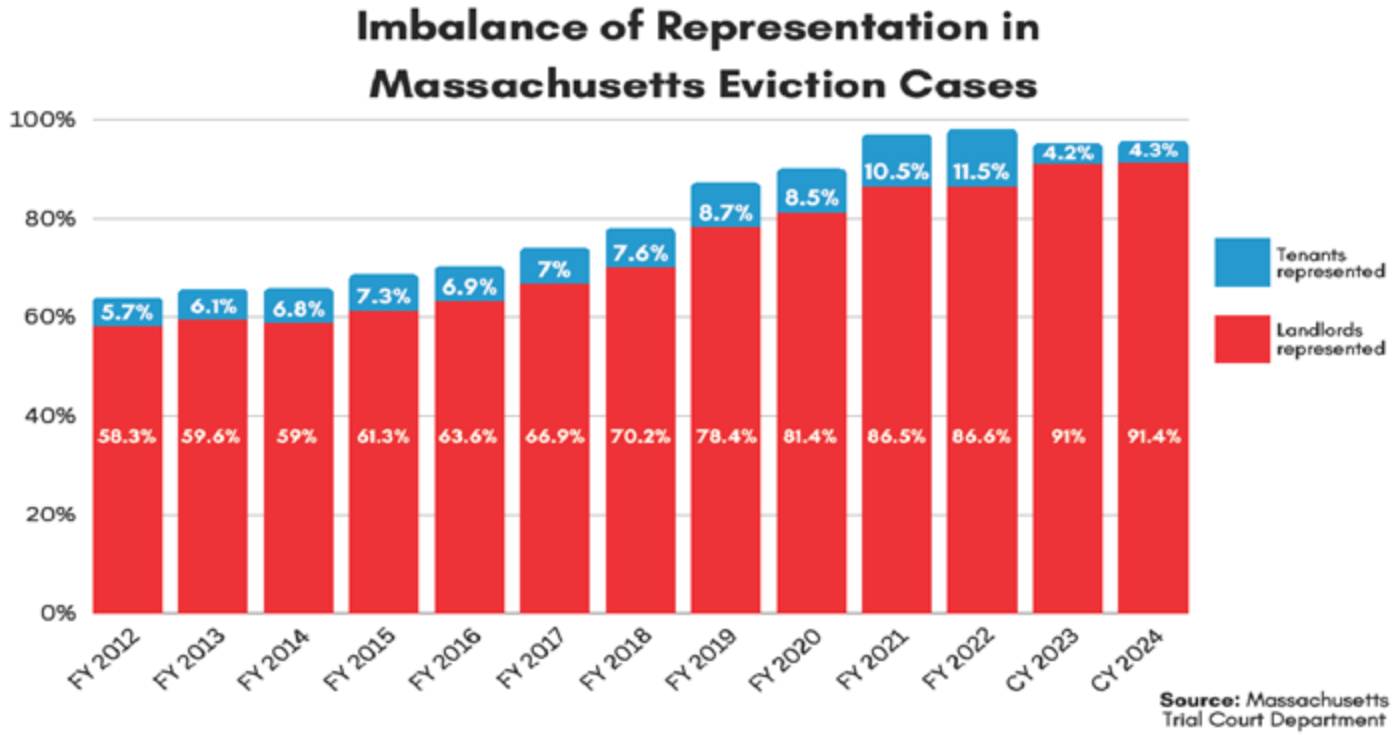
Why We Need Access to Counsel



1 in 4 kids living in poverty faces eviction by the age of 15.

Mothers, especially single mothers and mothers of color, are being evicted far more frequently than others.

9 out of 10 tenants facing eviction are unrepresented.

LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

An Act relative to controlling and abusive litigation H1594/S1205

- Sponsored by Senator Moore and Rep. Natalie Blais
- Gives judges tools to limit the ability for abusers to use the courts to maintain contact and control over their target-similar to anti-SLAPP law (Strategic Litigation to Prevent Public Participation)
- Massachusetts law recognizes coercive control as a form of abuse. Bringing the survivor back to court allows the to continue to exercise power and control over them including economic abuse (denial of resources or forcing victim to deplete resources), use of discovery to obtain access to activities or communications, use of children and child custody/child support to coerce victims

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

An Act relative to controlling and abusive litigation H1594/S1205 (continued)

- One study found on independent screening ¾ of child custody, child visitation, and child support cases flagged for indicators of domestic abuse
- Women who have been abused suffer from Post-Traumatic Stress Disorder (PTSD) at two to three times the rate of combat veterans. Post trauma healing can only begin once the sufferer leaves the trauma behind & reaches safety. For the combat soldier that means leaving the battlefield and returning home. For victims of domestic violence, home is the battlefield. When they are finally able to escape, they find themselves on a new battleground, the Family Court.

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

An Act to reduce mass incarceration (S1178/ H2052)

Lead sponsors: Senator Miranda and Representative Worrell

- Give everyone a parole hearing after serving 25 years; and
- Require the Department of Correction (DOC) to establish a restorative justice program.

By passing this bill, the Commonwealth would:

- Eliminate extreme sentences that waste lives and human potential (1000 people are now condemned to die in Massachusetts prisons);
- Mitigate systemic racism in the criminal legal system;
- Stop wasting the state's fiscal resources for no significant public safety benefit;
- Acknowledge that people can change, allow everyone to hope for a better future, and give everyone incentive to participate in rehabilitative and educational programs;
- Reduce the harm done to innocent children, families and BIPOC communities; and
- Limit the number of frail elders held in prison, receiving inferior heath care at a very high cost.

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

What Can You Do?

- Join us for a lobby day to help advance this bill:
  Sponsored by the Campaign to End Life without Parole (LWOP)

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

An Act establishing Medicare for all in MA S860/H1405

- Lead sponsors: Sen. Jamie Eldridge and Rep. Lindsay Sabadosa, Rep. Margaret Scarsdale
- Universal single payer healthcare
- Re-establish health care as
  - consumer driven, fiscally responsible entity
  - with an independent consumer trust fund,
  - funded in a way MA consumers will feel most comfortable

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

An Act to protect the civil rights and safety of all Massachusetts residents

H2580/S1681

- Sponsored by Representatives Manny Cruz and Priscila Sousa and Senator Jamie Eldridge
- Disentangles state and local law enforcement from federal immigration system
- Builds on Lunn Supreme Judicial Court decision: "provides no authority for Massachusetts court officers to arrest and hold an individual solely on the basis of a Federal civil immigration detainer, beyond the time that the individual would otherwise be entitled to be released from State custody”

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

An Act to provide Identification to youth and adults experiencing homelessness

S2399/H3750

- Lead Sponsors Sen. Robyn Kennedy, Rep. Jim O'Day, Rep. Sean Garballey
- Eases Access to Mass IDs by waiving $25 fee and easing verification requirements
- A valid ID is critical to typical life tasks
  - Applying for housing and employment
  - Enrolling in education programs
  - Accessing essential services
- Passed in the Senate last four sessions

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

An Act relative to celebrating and teaching Native American culture and history

H628/S444

- Sponsored by Sen. Becca Rausch and Rep. Jack Patrick Lewis
- Adds curriculum standard of Native American history and contemporary issues
  - Topics include tribal sovereignty and governance, treaty rights, genocide, Native American cultures, languages, and socioeconomic experiences, along with ongoing challenges faced by contemporary Native Americans in Massachusetts.
- Educational standards developed in consultation with tribal nations to ensure accuracy and cultural relevance

LWV LEAGUE OF WOMEN VOTERS® OF MASSACHUSETTS

An Act ensuring access to full spectrum pregnancy care

H1311/S761

- Sponsored by Sen. Cindy Friedman and Rep. Lindsay Sabadosa
- Many pregnant people with health plans do not receive adequate prenatal, childbirth, postpartum or abortion care because they cannot afford shared costs. Unnecessary poor health outcomes and deaths result.
- Requires all public and private Massachusetts health insurance plans to provide coverage for full spectrum pregnancy care with no cost barriers.
  - The additional cost per month for health insurance premiums would be around $1.29 per member per month.
- Low-income families and communities of color are most affected by high out-of-pocket maternal health care costs.
